The abdication of the Sultan gave three  
housand American newspapers an oppor-  
tunity to remark that "the Sultan Abdul-  
aziz is the Sultan Abdulbas." And  
it is true, serious doctors declare that American  
men are dying.

A daughter of Erin.—The new cook, on  
serving "short" notice to leave, with a  
pretence that she has given a false character  
for him, says: "I am it me false character ye're after  
talking in me teeth! As if I'd be bringing in  
three character wid me, to lose it in  
my dirty service."

How rough are Coon. "People are apt to make a great deal about the heat, but the convenience they experience is in a great measure owing to the fact that the Coon is a creature that between June and September to the north of the equator is in the season of aestivation, yet few provide themselves with clothing nearly suitable to such a season. All that man requires at such times is a flannel shirt and a pair of linen at the knees, with the collar and the cuffs and the wrists. The shirt should be made very loose in the neck. Trousers of flax, cotton or waistcoat of the flannel alpaca produced by the Coon are best. No one in such a season of health who wears this dress and carries a light, airy, well-ventilated hat, will find it uncomfortable. But persons who, when the thermometer is in the forties, wear stiff, tight-fitting, and heavy garments, will find it very uncomfortable. Those who are apprehensive of catching cold, should wear very light and loose overcoat at night. To be comfortable in the day, they should wear a light, airy, well-ventilated hat, and don't drink spirit.

Colds produce catarrh, catarrh produces pharyngitis, laryngitis, and consumption. The colds which are the cause of these diseases, and especially in this case where the colds are the cause of the consumption, are the colds which are the cause of the consumption. Hence, how important it is for the old or catarrh of the throat, or chronic, should be arrested. The colds which are the cause of the consumption, Dr. Sage's Catarrh Remedy. It is unaccompanied by any of the deleterious ingredients which are the cause of the consumption. It is sold by druggists and merchants in medicine.

The season is now fully opened and  
 berries in their finest condition.

## MORNING DESPATCHES.

EUROPEAN.

THE EASTERN WAR.

CONTRADICTORY REPORTS.

A Great Battle Fought.

FEELING IN TURKEY.

SERVANTS FOR THE FRONT.

BANKRUPT, July 10.—The Prime Minister

has announced that Turkey has accepted

Rumania's request for the neutralization

of the Danube, on condition that Rumania

shall prevent the supply of arms through her

territory to the Servians.

Turkey also requires as a condition for the

neutralization of the Danube, that Rumania

shall prevent the formation of armed bands

within her borders in aid of the Servians.

The Paris correspondent of the Times re-

ports that the Eastern situation "is the

opinion of competent men that nothing de-

cisive has yet occurred. All that is now trans-

piring must be considered as a mere series of

attempts by the Servians to force the Montene-

grins, and such junction when effected will be

the real beginning of the war.

A Russian special to the Times says the

Montenegrin operations were delayed in order

to give the insurgents time to reorganize and

army in Herzegovina. According to the lat-

est reports Derwiz Pasha was preparing to

attack their southern frontier. The Montene-

grins had good defensive positions.

The Times Vienna dispatch says according

to concurrent accounts from Wilkes and Bel-

grade Osman Pasha has withdrawn from be-

fore Sarajevo, having failed to force the po-

sition and his flank being threatened.

A Paris special to the Times says Mehmed

Ali has been driven back.

The Schwartz telegraph sent a statement

that the Russian Prince Vladimir is at Alex-

and, incoignit.

A despatch from Constantinople to the

Daily Telegraph, dated July 10, says "A

great battle was fought to-day near First

result not yet known."

The Telegraph's special from Vienna an-

nounces that the Russian command has de-

clared on Sunday with the intention of

opening at the Bos. The Berlin telegram to

the same paper asserts that the Porte will

formally notify the Powers that it cannot re-

spond to the Servian or Montenegrin as beliger-

ents.

LONDON, July 11.—The Standard's cor-

respondent telegraphs: Troops, guns and stores

of all kinds continue to be sent to the seat of

war. The feeling against Servians is very

strong, and the financial position of the Tur-

key is now so thoroughly ruined that the Ser-

vians, if beaten, must expect to leave the

country. The Servians, too, are drawing all their

troops to Gen. Therau's army.

The city of Belgrade is almost depopulated,

and is completely drained of troops. The

Serbian Government has been obliged to

recruit have been already called out to aid in

the defence of the frontier against the public

enemy.

EUROPEAN GRAIN TRADE.—A cable

message of the 10th inst., says: "The Mark

and prices in the grain trade are very

firm. The position of the great Power

has prevented a warlike attitude of affairs

from arising, so that holders have evinced

some hesitancy in selling. The present

position of affairs, therefore, is one of

firmness, accompanied by anxiety, as there

are weather risks as well as war to be con-

sidered. The supplies of grain in the

week have again exceeded requirements,

and what is going to the granary to await

shipment. There has been a steady con-

tinued demand during the week, although

quieter at the close, there being little En-

glish offering either in London or in the

country markets. Floating cargo has been

depressed owing to large arrivals at

the ports of call, and the sales at the end

of the week indicate a decline of 1/4 @ 1/2

per quarter.

## Daily Intelligencer.

Bellefleur, Friday, July 14.

## Town and Vicinity.

**GOOD CORN.**—Mr. R. Service exhibited a stalk of corn this morning, six feet three inches in height, the seed of which was planted on the 15th May.

**TAN TRAIL.**—The water in this river is very high, and consequently favorable to the navigation of the lower portion. The last week one hundred and fifty thousand saw logs are said to have arrived at the Trenton docks.

**THE WEATHER.**—There has, within forty-eight hours, been a slight fall in temperature, but the thermometer still ranges high, and the present week's average heat will be about the same as last week's. The amount of the month to date is higher than has been recorded for years.

**FOR GREAT BRITAIN.**—Mr. Brignol, of the firm of Foster, Berber & Brignol, left Belleville last evening for Great Britain, whether he goes to make fall and winter purchases for this firm. He sails by the *Sarmatien*. We hope he may have a pleasant and profitable trip.

**OBSEQUIES' EXCURSION.**—Quite an excitement, No. 19, L. O. F., will have its third annual excursion to Stella Point, on Friday next, on Friday next, it seems probable that the excursion will be a first-class one, as arrangements are rapidly being perfected to that end. Participants will be found in another column.

**OFFICIAL TIME TABLES.**—The July issue of this useful traveller's guide has been given. It is a valuable manual in parvo, containing, besides the time tables corrected to date, a brief description of the various companies operating, of each principal city, town and village along the lines of railway in Canada and the United States. Published by the National Railway Publication Company, No. 233 South Fifth Street, Philadelphia.

**THE TRAIL TO TRENTON.**—The excursion to Trenton, per steamer *Ontario Belle*, yesterday afternoon was a grand success, and the party, which comprised approximately fifty adults, and a large number of children fully occupied all available space, and highly enjoyed the trip. Spent an hour in the city, and returned an hour from the time of starting, and a stay of upwards of two hours in that thriving village was given to those who chose to land and remain. Meanwhile the boat took a large party of the villagers for a trip to the bay, and returned for home at 6 o'clock, arriving here at 7:10. Doubtless some of yesterday's excursion will induce the owners of the *Belle* to give others of a like nature during the season.

**SCOTCH FUNERAL.**—At the meeting of the Kingston Presbytery at Kingston on the 12th inst., the following resolution was adopted:—“The Presbytery of Kingston hereby resolves that the members of the same shall be requested to observe the day of frequent observance, interfering with the proper observance and the proper work of the Sabbath, and consenting of large amount of Sabbath desecration, to abstain from attending the same, and adherents of the various congregations and mission stations within the bounds be affectionately and earnestly exhorted to guard against appointing funerals on the Sabbath Day, and that they refrain from attending any on this day that are not strictly works of necessity; and that the various ministers and missionaries be exhorted to decline to attend any on the Sabbath that are not properly a work of necessity.”

**PRELUDE ADVERTISEMENT.**—The following notice has been published in the *Intelligencer*:—“When the collection has been taken up towards the close of divine service and the last hymn approaches, the minister rises in the pulpit and announces the forthcoming events, religious and social, of the week. To some people, these announcements are taken up in engineering, with painful detail, not alone prayer-meetings and social gatherings, but lectures, social entertainments, concerts, re-union and strawberry festivals. Announcements of this kind come in very inconveniently after the solemn exercises of devotion, and clash with the spirit of religion itself. Several clergymen have lately protested against the practice of taking up the subject for advertisement, and properly so, in an age when every church-goer, at least, can read, there is no earthly reason why the media employed in the ordinary affairs of life for announcements of public events should be resorted to for all church purposes. It is indeed to be hoped that a congregation to remember a long string of engagements, however at the expense of a service that has already been rendered, is a waste of power. We are glad to see that Mr. Hunter, of Queen Street Methodist Church, Toronto, has taken a decided stand on this subject and positively refused

## Parliamentary Visitors to the Centennial.

## THE EASTERN TROUBLES.

## The Extradition Question.

**LONDON, July 14.**—The *Daily News* says that a representative body of members of parliament shall visit Philadelphia to see the Centennial. The idea of having a Government messenger has been abandoned, but we understand the White Star Company have placed the *Adriatic* at the disposal of the Committee which has been formed to make necessary arrangements.

The *Daily News* says John Bright will probably visit Philadelphia in connection with the question to Lord Derby.

The *Daily News* Vienna despatch says the authorities here are receiving petitions of annexation to Austria from the Bosnian Catholics.

Mr. Gladstone has held meetings in London, and he is going to the North, but agreed that Austria was preferable to Servia.

The House of Commons have held a secret sitting to consider the request of Russia to permit the passage of a large number of volunteers to Serbia.

The *Telegraph* has received a manifesto from the Canadian Government, in which the Canadian Government is protesting against the annexation of Bosnia and Herzegovina to Austria.

**VIENNA, July 14.**—The Austrian Government has every reason to believe that the accounts of Bosnian atrocities are completely exaggerated.

**LONDON, July 14.**—The *Times* this morning reports that Lord Derby's speech on the whole, Secretary of State has not been easily repelled, but when he came to the substance of the question at issue it is harder to follow him with complete agreement. We can imagine the hope that the American Government, upon a calm review of the circumstances, will agree that a new treaty is to be framed, precisely which the United States is willing to accept.

**THE EASTERN WAR.**

**VIENNA, July 14.**—The *Standard*, a Belgian special says, “I am assured that 7,000 wounded Serbian men lying in the villages on the river Save and Morava. Bedding, food, and medical supplies are daily required. There are no surgeons or trained nurses. I hear that the Turks take no prisoners, and systematically refuse quarter.”

The *Standard* also says that the Serbs are reported to have been driven from the position of Sutic and still an important point, and where the loss of war will take place. Gen. Tschirsky's forces have been driven to 20,000 men.

Daily Intelligence.

BELEVEILLE, MONDAY, JULY 17.

Town and Vicinity.

A NEARBY.—The loud whistling of  
tags on entering the harbor at all hours of  
the day and night is a great nuisance, and  
we hope that the captains of the boats  
which cause this annoyance will take the  
hint.

Ladies' College.—The Ottawa Ladies'

College have issued a Prospectus setting  
forth the advantages of the education at  
this institution, its system of management,  
its course of studies, &c. We believe it is  
deservingly popular. It certainly has an able  
Faculty and is in every respect equal to  
the Young Ladies for the better walks of  
life. Music is a specialty.

FIRE.—This morning the roof of Messrs.  
Johnson & Vanstone's saw mill caught fire  
from the smoke stacks, but the spread of  
the flames was prevented by the use of a  
few buckets of water. The fire brigade  
turned out very promptly, but the fire was  
extinguished before the structure of the  
mill reached the place where it occurred.  
The ferry steamer got out of line of hose,  
and was ready with a stream, but her services  
were not needed.

CONSTRUCTION COMPANY.—We under-  
stand that a construction company is being  
formed, for the purpose of completing the  
Grand Junction Railway. Among the  
gentlemen who form the syndicate are  
Brown, Esq., the well known railway con-  
tractor, Sanford Baker, Esq., Hon. Lewis  
Wallbridge, and other local capital-  
ists of repute. The names of these gentle-  
men are a guarantee of the stability of the  
enterprise, should they succeed in com-  
pleting the formation of the Company.

FOR JAPAN.—The Rev. Mr. Meacham  
preached a farewell sermon to a large and  
gregarious in the Bridge Street Methodist  
Church last evening, he being about to  
start for Japan to engage in the duties of a  
missionary. He took for his text the 17th  
chapter of St. John and exhorted the con-  
gregation to be true to the Master's will,  
and that those should take heed to keep them  
from evil. In a short and pointed ser-  
mon he went on to show that Christians  
should not wish to leave this world, but to  
stay in it as long as they can, and be doing  
his work. In conclusion the reverend  
gentleman feelingly referred to the many  
meetings in other times in the Pinnacle  
Street Church, and bid adieu to all pres-  
ent, many of whom he had known from  
childhood.

A MYSTERIOUS ROBBER.—Shortly after  
two o'clock last night a man carrying a  
bull's-eye of "dark" lantern, and a gun  
about in the second story of Messrs.  
Pittsford & Kelso's building, over the  
wholesale grocery store of that firm. The  
police were at once notified, and they, with  
two or three other persons, entered the  
premises to arrest the robber. Search  
was made throughout the entire building,  
but no one was found after an hour's hunt,  
and the matter was given up as a bad  
job. It is suggested that the man with  
the lamp was the creature of somebody's  
imagination, but this can scarcely be the  
case, as he was seen by several people. It  
is quite possible that he homed with the  
people who made the search, and was con-  
sidered, or he might have had his retreat  
secured, and made off on hearing those  
who came to arrest him enter the building.  
At any rate, the mystery is as yet unsolved,  
and rules that of the "Brighton ghost,"  
which created such a sensation in that  
village some months ago. One thing is  
necessary, however, namely the appointment  
of a clever detective in connection with the  
police force. Burglars in this town escape,  
as a rule; but with the aid of a detective  
of the calibre would be the exception instead  
of the rule, if the right kind of a man were  
employed. We commend the matter to the  
attention of the Police Commissioners, and  
ask them at the same time to look over the  
record of the past five or six years, to  
find justification for such an appointment  
as is here recommended.

and interest he has manifested in assisting  
him to build this season. The first work  
of the bridge will be to connect the two  
banks of the river, and the bridge will be  
applied in the building of approaches.  
The friends hope to have a picnic or din-  
ner on the bridge, when completed.  
Let all attend.

PERSONAL.—Mr. T. J. Shanks, Man-  
aging Editor of the New York Tribune, is  
in town on a flying visit to his friends. We  
are pleased to see our former fellow-labor-  
er in the Belleville press in excellent health.

THE SHOW.—There was a very large  
turn-out this morning to witness the street  
parade of W. W. Cole's Circus, menagerie  
and hippodrome. The procession was a  
very fine one, and attracted the notice of  
features were a den of performing lions  
with their keeper, and a cage of large  
snakes, some of which were coiled about  
the man who performs them. These at-  
tractions, which were open to the view of  
all, were highly satisfactory. No doubt  
the performance, which is said to be the  
first class, will be a most successful one.  
The Show ground is on the right hand  
distance from the Blooker Street Church.

MONDAY, July 17.

THEATRE.

Alfred Ward was charged with riotously  
tampering and unlawfully breaking open  
the front door of Joseph Litchfield's tavern  
in Thompson, on the night of the 5th of  
June, and with tampering with the Magistrate  
and there was no charge against him  
warrant upon the prisoner could be  
tried, at the same time expressing the opinion  
that the case would be heard by the  
Magistrate, Mr. Vandusen of Tynes, who  
issued the warrant. It required three persons  
to make a riot, and only two were men-  
tioned in connection with this case. Plaintiff  
was sworn and stated that on the night in  
question prisoner and Benjamin Burley came  
to his house and battered at the door with  
a great deal of noise, and that he was  
telling of the riotous conduct. The parties  
had since kept out of the way. They had  
agreed to leave the County on condition of  
not being prosecuted, but had not done so.  
Burley afterwards asked plaintiff to settle,  
but he refused to do so. After entering the  
house, Burley threatened to shoot him. In  
consequence, plaintiff fled, and Burley  
had paid the cost. Would not have pro-  
ceeded if Way had left the County. The  
Magistrate dismissed the charge for the  
reasons above given, plaintiff to pay costs.

THEATRE.

John Anderson was charged with attempt-  
ing to commit a robbery at Philip Riddick's  
in Sydney, yesterday. Prisoner elected to be  
tried summarily, and plaintiff to go. The  
evidence which was taken against him  
on account of the matter as given in another  
column.

Prisoner stated that he had lived in Bel-  
leville, Ontario, and in Toronto, and had  
been here three days. He was found  
guilty and held until Wednesday for sum-  
mary.

LICOR LAW.

R. M. Mott, was charged with selling liquor  
without licence. The case was deferred until  
Wednesday.

UNLAWFUL TANGENT.

The case of Scholze vs. Wesce was dismissed  
without costs.

**CANADIAN BIRDS.**  
THE EAGLES, HAWKS AND OWLS  
of Canada.  
By HENRY O. YENNER, F.G.S.  
Or the GEOLOGICAL SURVEY OF CANADA.

THIS is the first illustrated work which has  
been published in Canada. It contains  
100 large plates of many different birds,  
and the letter-press (100 pages) is full of  
interesting facts relating to the habits,  
distribution and nesting of birds throughout  
the British possessions of America. Price,  
strongly bound in cloth, \$12.  
N. B.—This price barely suffices to cover  
the cost of the 100 plates alone.  
Orders may be sent to

Considerable excitement is felt in the  
Swedish districts in consequence of the stop-  
page of the steel works at Landerne. The  
works are very extensive, employing about  
two thousand men making steel by Bessemer's  
patent.

When a man is seen reeling through the  
streets of London, the English people don't  
see what vulgar expression, "Look at that  
drunken fellow," they say, "There is a man  
who has been contributing to the revenue."

There were 2,474 births and 1,290 deaths  
registered in London during the week end-  
ing June 17. Allowing for increase in popu-  
lation the births exceeded by 1,184 the  
deaths were 50 below the average in the  
corresponding week of the last 10 years.

Several hundred men in the Worked  
branch of the Sheffield scissors trade, who  
had for months been on strike for thirty  
per cent. and had higher wages, were now  
on the old terms. In the interval large  
quantities of German scissors have actually  
been sold in Sheffield market.

The bills of mortality in Paris for the  
week ending June 24 show a diminution of  
deaths from the previous week, the number  
being 865 and 903. The deaths from small-  
pox were 12; those from measles had de-  
creased from 41 to 37; in bronchitis from 31  
to 15; and lung diseases from 78 to 17.

The total earnings of all the railways in  
India during the year 1875 was Rs. 28,388,252  
as compared with Rs. 27,720,132 in 1874,  
although the number of miles open in the  
former year was 6,381, as against 6,018 in  
the latter. The average receipts per mile  
were Rs. 22 in 1875, and Rs. 24 in 1874.

Within fifteen years, Turkey has been  
brought by means of numerous borrow-  
ings, to owe over 200,000,000 of Turkish pounds,  
bearing an average interest of nine per  
cent. per annum. The country now pro-  
duces an income of Rs. 230,000,000 Turkish  
pounds, and this income is every year  
decreasing.

A gunner named Charlton, who was  
sentenced to four months imprisonment for  
insubordination, has returned to the  
Herbert Hospital, at Woolwich, having lost  
both his feet. It is assumed that he was  
confined in a dark cell at Millbank for  
eighty-eight hours, and that his feet were  
frozen in consequence.

Warrickshire, England, boasts of a mor-  
tality in schoolmasters. A speaker at the  
meeting of the Chamber of Agriculture said  
that in a district where the population was  
about one to about every five acres, there  
land, there was a board school, the master  
of which was a butcher, cattle dealer,  
farmer, postmaster, paid overseer and organist.

The Secretary of State for War has been  
asked by Mr. Price, in the House of Com-  
mons, to consider the expediency of ex-  
tending to officers of the regular service  
the privilege which has been already ac-  
crued to officers of the militia and volun-  
teers, of retaining their rank and wearing  
their uniform on retirement after a certain  
length of service.

At the Chesterfield police court, recently,  
Arthur Slater, chemist, of New Whitting-  
ton, was fined £2 10s. and costs, under the  
Adulteration Act, for having, when making  
up medicine from a written prescription, put  
in an improper quantity of one of the  
ingredients. He had doubled the quantity  
prescribed of iodide of potassium.

There is an antiquarian exhibition about  
to be opened at Rheims, France, under the  
patronage of the Archbishop, and to this  
a simple-minded savant desired to send  
some fine instruments. The Archbishop, who  
has a collection of fine instruments, and a  
tendency to tread directly on Biblical chron-

The remains of Mr. Nathan Davis, a  
great-grandson of David Hargrave, were  
interred in the cemetery at Kensal  
Green, on Saturday, June 10. The de-  
ceased gentleman was sixty-seven years of  
age. He had in his possession several re-  
licques of the great artist, and he has be-  
queathed the following portrait to the National  
Gallery.

Seven Chinese officers have arrived at  
Beijing—two captains and five lieutenants,  
with credentials from their Government,  
and a request to the Government of Ger-  
many to allow them to serve for the  
Prussian army, as some Japanese offi-  
cers were allowed to do some time ago, for  
the purpose of acquainting themselves with  
the German military system. The  
German Emperor has acceded to the re-  
quest.

Several statues in white marble are to  
be placed in the crypt of the tomb for the  
Orleans family at Dreux. The first, de-  
signed by the Count de Paris, represents  
Marie Adelaide lying on a bed, the head  
and breast exposed by a white sheet. The  
three others have been ordered by the  
Count of Montpensier, who will place  
them on the apse of his daughter's tomb.  
Two sons. All four are the work of the  
sculptor Millet.

The testal movement in the European  
Army in India is extending month by  
month. By the return for May this year,  
it seems that there were 7,400 non-com-  
missioned officers and men of the service on  
the unexpired energy and devotion of  
Rev. Mr. Grey, president of the Honorary  
Secretary of the Soldiers' Total Abstinence  
Association of India.

In a book circulated under the authority  
of the Church of England, the following  
questions and answers are found:—"Q.—

any respect in the Church of England."

At the Rugby (England) County Court  
recently a case was heard in which Mr.  
Friedrich Wale, a widow lady of independ-  
ent means, residing at Kilby, near Rugby,  
sued Richard Jones, a butcher, of the same  
place, for £20 damages, for illegally taking  
a cockatoo parrot belonging to the plaintiff.  
The defence was that the defendant saw the  
cockatoo mistaking it for an owl. The

following bill of the deceased cockatoo was  
brought into Court, and afforded ample  
evidence by strongly recommending the  
plaintiff to "take notice" of the bill, and  
asking for "sugar." His Honor and there-  
upon gave leave to the plaintiff to "take  
notice," and he must take time to consider the  
question. While the solicitors were arguing  
pro and con, the bird, under the influence  
of the parties to shake hands.  
Judgment was deferred.

**The Cheese Tally.**  
Whellans, in his letter to the *Globe*,  
says:  
I am, I find, a duty of two cents per  
pound on Canadian cheese imported into  
the United States—which must be paid—  
but is returned when the cheese is re-exported  
or other foreign ports under bond of drawback.

For example, a cheese factory in Canada  
sends 100 tons to John Jones, broker,  
(i.e., the middleman) at New York, to be  
sold. Jones disposes of them to an im-  
port purchaser and returns account sales  
of the cheese, and a possible 870, win-  
ning 4.44 per shot all through the long  
course of 174 shots.

## MARTIN, July 21.—The Cortes have been

## prorogued until November. General Marti-

## nez Campos and General Del Castillo will be

## accompanying the King to Santander, to receive

## the ex-queen Isabella. Special preparations

## are making for her reception. Several frigates

## will meet the ex-queen at San Juan de Luz.

## Buenos, July 21.—General Ignatiev leaves

## Constantinople on a monthly voyage to London

## by command of the Czar, who desires a personal

## explanation of Eastern affairs. The

## Grecian Government has announced the north-

## east powers that she intends to observe the

## strictest neutrality.

## RATON, July 21.—The Montenegrin army

## is at present at Novigrad. The Prince's

## strategy is considered very feeble, undecided,

## and likely to sacrifice all the advantages gained

## at the commencement of operations. The

## opportunity of taking Njass without fighting

## is at present lost. The inaction of the

## Prince excludes Montenegro from concentrating

## his troops; the Turks have to bring the troops

## from Fozna to fall on the Montenegrins; the

## co-operation with 2,000 Turks who are now

## so blockaded at Gatachaka, seriously en-

## dangered over on a dark night as they need to

## be ready in all these cases is say. It is

## not for the Town Council to appoint an

## down if he chooses to do so, and we believe

## he will and repeat the Council House, also

## ordered by the Street Committee.

## TENNIS SLAUGHTER.—It is certainly a

## boon which does not too much over-estimated,

## that during these hard times and

## general depression, all classes are enabled

## to pick up such bargains as are at present

## being offered at the Commercial House, W.

## A SPLITTY CUSTOMER.—"Anderson,"

## the watch thief who was covered by a

## woman, was one of the most slippery custom-

## ers our policemen ever had hold of. After

## the capture of Anderson on Wednesday, when

## it will be remembered he got rid of his handcuffs,

## his hands were tied behind his back. Even

### Daily Intelligence.

Curious, Useful and Scientific.

A WONDERFUL BOAT

The first light brought home from India

by the Pacific, was a cable boat, built

more than a foot long and wonderfully

strong. The men reported the boat

wings and tail of a peacock, the lustrous

brown of the bird being carved into the

body of the boat with such close

and finely to the truth, bright coloring

of flowers.

WITH THE LATERALS.

Vines growing strongly should have their

lateral growing pinched. Never allow

any unnecessary lateral growth to

develop, as it is a waste of strength, and

should be concentrated in what is left to

the main stem, and is also in the fruit.

CANADIAN BIRDS.

THE EAGLES, HAWKS AND OWLS

OF CANADA.

BY HENRY G. VENNOR, F.G.S.

Owner, Grosvenor Street, CANADA.

THIS is the first illustrated work which has

yet appeared on Canadian Birds. It contains

30 large plates of as many different birds,

and the latest news (100 pages) about them,

and interesting facts relating to the habits,

distribution and nesting of them, throughout

the British possessions of America. Price,

shilling bound in cloth, 5/2.

The price largely reduces to cover

the cost of the 30 plates alone.

**CANADIAN BIRDS.**  
THE EAGLES, HAWKS and OWLS  
of Canada.  
By HENRY G. VENNOR, F.G.S.  
OF THE GEOLOGICAL SURVEY OF CANADA  
THIS is the first illustrated work which has  
yet appeared on Canadian Birds. It contains  
30 large Plates of as many different birds,  
and 348 smaller (160 pages) of specimens in  
nesting and in the act of feeding the young.  
It is a valuable addition to the habits,  
distribution and nesting of those, throughout  
the British possessions of America, Africa,  
Europe, Asia, &c.—This price barely suffices to cover  
the cost of the 50 plates alone.
